

Brownfields 2013 Assessment Grant Fact Sheet

Indiana 15 Regional Planning Commission, Southern Indiana

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Assessment Grant

\$253,100 for hazardous substances

\$146,900 for petroleum

EPA has selected the Indiana 15 Regional Planning Commission for a brownfields assessment coalition grant. Community-wide hazardous substances grant funds will be used to conduct nine Phase I and seven Phase II environmental site assessments. Petroleum grant funds will be used to conduct six Phase I and four Phase II environmental site assessments. Grant funds also will be used to develop up to six cleanup plans, maintain an inventory of sites, and conduct community outreach activities. Coalition partners are Crawford, Dubois, Orange, Perry, Pike, and Spencer Counties.
