

# PEER REVIEW PLAN

Title:	REVIEW OF THE RADNET AIR MONITORING NETWORK UPGRADE AND EXPANSION
Purpose/Objective:	The objective of the near-real time air monitoring component of RadNet is to provide verified decision-making data to federal and state agency decision makers and the public in hours instead of days. Doing so helps assure that EPA can meet its national environmental radiation monitoring responsibilities, including those which have resulted from its recently acquired homeland security support role.   
Product Completion Date (Projected):	08/31/2006
OMB Category:	Influential
Peer Review Leader:	John Griggs email: griggs.john@epa.gov

External Peer Review Mechanism:	Nominated to the Science Advisory Board for Peer Review
Date of Projected Peer Review:	12/31/2005

Was a deferral to peer review invoked?	No
Will an alternative peer review process be employed?	No
Number of Peer Reviewers	more than 10
Primary Disciplines needed in the review:	Monitoring and Assessment-Environmental
Who will select the reviewers?	FACA
Will the public, including scientific or professional societies be asked to nominate peer reviewers?	Yes
