Installation Instructions for TrueGrit

1. Download “TrueGrit.zip” to your local drive to a target directory.
2. Extract the zipped files (“TrueGrit.exe”, “MCRInstaller.exe”, and “Installation Instructions for TrueGrit.pdf”)
3. Double click “MCRInstaller.exe” and follow the prompts to install the Matlab Compiler Runtime (MCR).
4. Once the MCR is installed, TrueGrit may be started by double clicking the executable “TrueGrit.exe”
5. To create a desktop shortcut, right-click on “TrueGrit.exe” and choose “create shortcut…”
6. To add a start menu item, drag the shortcut created in step 5 to the start menu.
7. Please report bugs and suggestions to Matt Etterson (etterson.matthew@epa.gov) or Rick Bennett (bennett.rick@epa.gov).

Note that instructions on parameter definitions for inputs can be found in the associated report:

Bennett, R., D. Hoff and M. Etterson. 2011. Assessment of Methods for Estimating Risk to Birds from Ingestion of Contaminated Grit Particles. EPA/600/R-11/023, ERASC-016 F.
