

Kreis, R.G. Jr. 2015.

The Great Lakes Water Quality Agreement with an Emphasis on Annex 4 – Nutrients and Lake Erie.

Lake Erie Conference, Wildwood Metropark, Toledo, Ohio, March 20, 2015. (Invited Speaker).

Presented will be an overview of the Great Lakes Water Quality Act of 2012 including a general description of the Annexes and the new Binational Governance. The talk will focus on the Annex 4 Nutrients Subcommittee and the Objectives and Targets Task Team efforts that have been directed as top priority for Lake Erie due to the hazardous algal bloom situation in the Western Basin. An overview of phosphorus load data with emphasis on the Maumee and Detroit Rivers will be provided per the Task Team's efforts.
