EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Assessment Grant

$250,000 for hazardous substances
$50,000 for petroleum

EPA has selected the West Virginia Land Stewardship Corporation for a Brownfields Assessment Grant targeting sites near or adjacent to the Mon River target area. Community-wide hazardous substances grant funds will be used to conduct up to 10 Phase I and five Phase II environmental site assessments. Petroleum grant funds will be used to conduct up to two Phase I and one Phase II environmental site assessments. Grant funds of both types will be used to develop cleanup plans, inventory and prioritize sites, and conduct community outreach activities.
