

## **Brownfields 2020 Assessment Grant Fact Sheet** **Philadelphia Authority for Industrial Development, PA**

### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### **Assessment Grant**

*\$300,000*

EPA has selected the Philadelphia Authority for Industrial Development for a Brownfields Assessment Grant. Community-wide grant funds will be used to conduct five Phase I and five Phase II environmental site assessments and support community engagement activities. Assessment activities will focus on the 3,700-acre Lower Schuylkill district in south and southwest Philadelphia, which has experienced several manufacturing closures and comprises 68 percent of the City's vacant and underutilized industrial land. This district is also home to numerous Qualified Opportunity Zones.
