

Brownfields 2021 Job Training Grant Fact Sheet **Groundwork Denver, Sheridan, CO**

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Environmental Workforce Development and Job Training Grant funds are provided to nonprofit organizations and other eligible entities to recruit and train unemployed and underemployed residents from communities affected by environmental pollution, economic disinvestment, and brownfields and place them in environmental jobs. Since the program was created in 1998, EPA has funded 335 job training grants totaling over \$72 million through the Environmental Workforce Development and Job Training program. A total of 18,541 individuals have been trained and 13,751 individuals have been placed in full-time careers related to land remediation and environmental health and safety. The average starting wage for these jobs is more than \$14 an hour. This equates to a cumulative placement rate of approximately 74%.

Job Training Grant

\$178,095.00

EPA has selected Groundwork Denver for an Environmental Workforce Development and Job Training grant. Groundwork Denver plans to train eight students and place at least six in environmental jobs. The training program is focused on green infrastructure and includes 271 hours of instruction in 40-hour HAZWOPER, Community Forester Training, Sustainable Landscape Maintenance, Rain Barrel Installation and Maintenance, Irrigation Audit and Maintenance, Resident Engagement and Education, Stormwater Control, First Aid/CPR/AED, Green Infrastructure and Low-Impact Development, Heavy Machine Operation, Parks Interpreter, National Historic Preservation, and Best Management Practices Installation and Maintenance. Students who complete the training will earn up to ten certifications. Groundwork Denver is targeting young adults ages 18 to 24 who reside, attend school or church, or otherwise spend significant time in the City of Sheridan, CO. Key partners include the City of Sheridan, CAP Management, Denver Parks and Recreation, the Trust for Public Land, the Institute for Environmental Solutions, Groundwork USA, Colorado Stormwater Center, The Park People, and the Watershed Management Group.
