

Brownfields 2012 Assessment Grant Fact Sheet **Wheat Ridge, CO**

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Grant Recipient: City of Wheat Ridge, CO
(303) 235-2819

The information presented in this fact sheet comes from the grant proposal; EPA cannot attest to the accuracy of this information. The cooperative agreement for the grant has not yet been negotiated. Therefore, activities described in this fact sheet are subject to change.

Assessment Grants

\$200,000 for hazardous substances

\$200,000 for petroleum

EPA has selected the City of Wheat Ridge for two brownfields assessment grants. Community-wide hazardous substances grant funds will be used to inventory brownfield sites and conduct 19 Phase I and four Phase II environmental site assessments throughout the targeted Wadsworth Boulevard Corridor. Petroleum grant funds will be used to conduct 11 Phase I and five Phase II environmental site assessments in the target area. Grant funds also will be used for cleanup planning and community outreach activities.
