

2012 Environmental Workforce Development and Job Training Grant Fact Sheet

The Hunters Point Family, San Francisco, CA

EPA Environmental Workforce Development and Job Training Grant Program

In 2010, the Office of Brownfields and Land Revitalization (OBLR) led an effort to more closely collaborate with other programs within EPA on workforce development and job training. Program offices now participating in the expanded initiative include the Office of Resource Conservation and Recovery (ORCR), Office of Superfund Remediation and Technology Innovation (OSRTI), Office of Underground Storage Tanks (OUST), Federal Facilities Restoration and Reuse Office (FFRRO), Center for Program Analysis (CPA), Innovation, Partnerships, and Communication Office (IPCO), Office of Wastewater Management (OWM), Office of Chemical Safety and Pollution Prevention (OCSPP), and the Office of Emergency Management (OEM). This initiative was created to develop a job training cooperative agreement opportunity that includes expanded training in other environmental media outside the traditional scope of just brownfields cleanup. As a result of this effort, the Environmental Workforce Development and Job Training Grants Program, formerly known as the "Brownfields Job Training Grants Program," now allows applicants to deliver other training in the environmental field, in addition to the core traditional brownfields hazardous waste and petroleum training historically provided.

Environmental Workforce Development and Job Training grant funds are provided to nonprofit organizations and other eligible entities to recruit, train, and place predominantly low-income and minority, unemployed and under-employed residents from solid and hazardous waste-impacted communities. Residents learn the skills needed to secure full-time, sustainable employment in the environmental field, including a focus on assessment and cleanup activities. To date, EPA has funded 191 job training grants totaling over \$42 million through the former Brownfields Job Training Program and newly expanded Environmental Workforce Development and Job Training Program. As of January 2012, approximately 10,275 individuals had completed training and approximately 7,155 obtained employment in the environmental field, with an average starting hourly wage of \$14.12. This equates to a cumulative placement rate of approximately 70% for the program, and also includes accomplishments data recorded since the program was created in 1998.

Environmental Workforce Development and Job Training Grant

\$200,000

EPA has selected The Hunters Point Family for an environmental workforce development and job training grant. The Hunters Point Family plans to train a minimum of 54 students, place at least 43 graduates in environmental jobs, and track graduates for at least one year. The core training program includes 224 hours of combined classroom and hands-on instruction in 40-hour HAZWOPER, UST leak prevention, solid waste management and recycling, wastewater management, habitat restoration, construction health and safety, and asbestos and lead worker. Four state and federal certifications will be offered. The Hunters Point Family is targeting low-income, minority residents of San Francisco's Bayview Hunters Point community. Key partners include the San Francisco Office of Economic and Workforce Development, San Francisco City College-Southeast Campus, Young Community Developers, Northern California District Council of Laborers, and San Francisco Public Utilities Commission.
