

## **Brownfields 2013 Cleanup Grant Fact Sheet**

### **Alamosa County Economic Development Corporation, CO**

#### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

#### **Cleanup Grant**

*\$200,000 for hazardous substances*

EPA has selected the Alamosa County Economic Development Corporation for a brownfields cleanup grant. Hazardous substances grant funds will be used to clean up the Pink Elephant property located at 523, 525, 527, and 529 Sixth Street, and 520 and 524 State Avenue in the City of Alamosa. Since the late 19th century, the site has been used for a number of commercial and residential purposes, including a post office, jewelry store, candy store, tailor, and boarding house. The site is contaminated with inorganic contaminants and metals. Grant funds also will be used to conduct community involvement activities.
