

## **Brownfields 2013 Assessment Grant Fact Sheet** **Anson County, NC**

### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### **Assessment Grants**

*\$200,000 for hazardous substances*

*\$200,000 for petroleum*

EPA has selected Anson County for two brownfields assessment grants. Community-wide hazardous substances grant funds will be used to conduct seven Phase I and three Phase II environmental site assessments. Petroleum grant funds will be used to conduct five Phase I and five Phase II environmental site assessments. Grant funds also will be used for community involvement activities and cleanup planning.
