

## **Brownfields 2013 Assessment Grant Fact Sheet Wilson, NC**

### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### **Assessment Grant**

*\$200,000 for petroleum*

EPA has selected the City of Wilson for a brownfields assessment grant. Community-wide petroleum grant funds will be used to conduct at least seven Phase I and four Phase II environmental site assessments. Funds also will be used to expand the city's inventory of sites, conduct community outreach activities, and develop cleanup plans for area sites.
