

Brownfields 2013 Revolving Loan Fund Grant Fact Sheet **Greater Portland Council of Governments, Cumberland County, ME**

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Revolving Loan Fund Grant

\$800,000 for hazardous substances

EPA has selected the Greater Portland Council of Governments (GPCOG) for a brownfields revolving loan fund grant. The grant will be used to capitalize a revolving loan fund from which the GPCOG will provide loans and subgrants to support cleanup activities for sites contaminated with hazardous substances. Grant funds also will be used for marketing and enrollment activities. The GPCOG anticipates granting four to six awards, split evenly between loans and grants. It is focusing on the Portland Harbor and Mountain Division Rail Corridor areas.
