

Brownfields 2013 Assessment Grant Fact Sheet **Plainfield, CT**

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Assessment Grant

\$200,000 for hazardous substances

EPA has selected the Town of Plainfield for a brownfields assessment grant. Site-specific hazardous substances grant funds will be used to conduct an assessment of building materials, soil, and groundwater at the former InterRoyal Corporation Property at 20 Reservoir Street. Built in 1906, the site was used as a textile mill and furniture factory until the company closed in 1986. Grant funds also will be used to support community involvement activities.
