

## **Brownfields 2013 Job Training Grant Fact Sheet** **Northern Arizona University, Navajo Nation Reservation, AZ, NM, and UT**

### **EPA Environmental Workforce Development and Job Training Grant Program**

In 2010, the Office of Brownfields and Land Revitalization (OBLR) led an effort to more closely collaborate with other programs within EPA on workforce development and job training. Program offices now participating in the expanded initiative include the Office of Resource Conservation and Recovery (ORCR), Office of Superfund Remediation and Technology Innovation (OSRTI), Office of Underground Storage Tanks (OUST), Federal Facilities Restoration and Reuse Office (FFRRO), Center for Program Analysis (CPA), Innovation, Partnerships, and Communication Office (IPCO), Office of Wastewater Management (OWM), Office of Chemical Safety and Pollution Prevention (OCSPP), and the Office of Emergency Management (OEM). This initiative was created to develop a job training cooperative agreement opportunity that includes expanded training in other environmental media outside the traditional scope of brownfields hazardous waste remediation. As a result of this effort, the Environmental Workforce Development and Job Training Grants Program now allows applicants to deliver other training in the environmental field, in addition to the core traditional brownfields hazardous waste and petroleum training historically provided.

Environmental Workforce Development and Job Training grant funds are provided to nonprofit organizations and other eligible entities to recruit, train, and place predominantly low-income and minority, unemployed and underemployed residents from solid and hazardous waste-impacted communities. Residents learn the skills needed to secure full-time, sustainable employment in the environmental field, including a focus on assessment and cleanup activities. Since 1998, EPA has funded 206 job training grants totaling over \$45 million through the Environmental Workforce Development and Job Training Grants Program. As of March 2013, approximately 11,473 individuals have completed training, of which approximately 8,198 have obtained employment in the environmental field with an average starting hourly wage of \$14.12. This equates to a cumulative placement rate of approximately 71% since the program was created.

### **Job Training Grant**

*\$200,000*

EPA has selected Northern Arizona University for an Environmental Workforce Development and Job Training grant. Through its Institute for Tribal Environmental Professionals, Northern Arizona University plans to train 36 students, place 35 graduates in environmental jobs, and track graduates for one year. The core training program includes 142 hours of instruction in 40-hour HAZWOPER, radiological technician training, construction safety, hazardous materials safe handling, and orientation to environmental cleanup. A total of three federal certifications will be offered. The university is targeting unemployed residents of the Navajo Nation, particularly those living in communities impacted by uranium mining and cleanup activities. Key partners include Navajo Nation Department of Workforce Development, Navajo Nation EPA, Navajo Nation Office of Economic Development-Church Rock and Shiprock Chapters, and Navajo Nation Council Delegates.
