

## **Brownfields 2016 Assessment and Cleanup Grant Fact Sheet** **Atlantic City, NJ**

### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### **Assessment Grants**

*\$200,000 for hazardous substances*

*\$200,000 for petroleum*

EPA has selected the City of Atlantic City for two brownfields assessment grants. Community-wide hazardous substances grant funds will be used to inventory and prioritize brownfields, and conduct 12 Phase I and 12 Phase II environmental site assessments. Community-wide petroleum grant funds will be used to conduct the same tasks at sites with potential petroleum contamination.

### **Cleanup Grants**

*\$363,658 for hazardous substances*

EPA has selected the City of Atlantic City for two brownfields cleanup grants. Hazardous substances grant funds will be used to clean up the Bungalow Park site at 709 Mediterranean Avenue, and the Delta Basin Homes site at North Maryland, Wabash, and Adriatic Avenues. The Bungalow Park site is vacant, undeveloped land and is contaminated with historic fill. The Delta Basin Homes site was formerly developed with a vehicle inspection station and automobile repair garages, and is contaminated with historic fill. Grant funds at both sites also will be used for community outreach and involvement activities.
