

Brownfields 2016 Cleanup Grant Fact Sheet **Northeast Ohio Regional Sewer District, Cleveland, OH**

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Cleanup Grant

\$200,000 for hazardous substances

EPA has selected the Northeast Ohio Regional Sewer District for a brownfields cleanup grant. Hazardous substances grant funds will be used to clean up the Cooper Property at 6207-6319 Kinsman Road, 6400-6420 and 6401 Grand Avenue, and 2697 and 2700-2721 East 64th Place in Cleveland. The site has had numerous uses since 1892, including residential dwellings, a lumber yard, building material supply yard, truck repair facility, and scrap yard. It is contaminated with metals, PCBs, and polynuclear aromatic hydrocarbons.
