## **Annual Report on Peer Review**

### **Fiscal Year 2014 (October 1, 2013 – September 30, 2014)**

#### **Purpose**

This annual report is a requirement under the Office of Management and Budget's (OMB) Final Information Quality Bulletin for Peer Review. The report provides information for peer reviews that EPA conducted in Fiscal Year (FY) 2014 that were subject to reporting under the Bulletin. This report contains up-to-date information as of the date of the report.

#### **Background**

On December 16, 2004, OMB issued its Final Information Quality Bulletin for Peer Review. This Bulletin asks all federal agencies to submit an annual report to OMB's Office of Information and Regulatory Affairs providing information on peer reviews that were subject to the Bulletin and conducted during the previous fiscal year. The Bulletin establishes minimum peer review provisions for all non-exempt "influential scientific information" and "highly influential scientific assessments." The Bulletin defines "influential scientific information" as "scientific information the agency reasonably can determine will have or does have a clear and substantial impact on important public policies or private sector decisions." A scientific assessment is an evaluation of a body of scientific or technical knowledge that typically synthesizes multiple factual inputs, data, models, assumptions, and/or applies best professional judgment to bridge uncertainties in the available information. The Bulletin considers a "scientific assessment" to be "highly influential" if the agency or OMB determines that the dissemination could have a potential impact of more than \$500 million in any one year on either the public or private sector, or that the dissemination is novel, controversial, precedent-setting, or has significant interagency interest.

For the purposes of this annual report, a peer review was considered completed if the peer reviewers' final comments were received during FY2014, regardless of whether the Agency has completed the response to the comments or incorporated revisions based on the comments into the final product. This annual report includes the peer reviews identified by the EPA offices as having met the Bulletin's definitions for "influential scientific information" and "highly influential scientific assessments".

More information on the Bulletin can be found at <http://www.whitehouse.gov/omb/memoranda/fy2005/m05-03.pdf> and in the EPA's *Peer Review Handbook, 3<sup>rd</sup> Edition* at <http://www.epa.gov/peerreview/>.

1. Provide the titles of ISIs and HISAs for which Waivers (W), Deferrals (D), or Exemptions (E) were invoked or Alternative Procedures used (A). *If deferral is marked, please indicate the duration of the deferral.* None

2. Number of peer reviews that included at least one peer reviewer appointed pursuant to any exception to the applicable independence or conflict of interest standards of the Bulletin, including determinations by the Secretary or Deputy Secretary pursuant to Section III (3) (c)?

Number of ISIs (not including highly influential scientific assessments): 0

Number of HISAs: 0

3. Number of peer review panels that held public meetings:

Number of ISIs (not including highly influential scientific assessments): 5

Number of HISAs: 5

4. Number of peer review panels that allowed public comment:

Number of ISIs (not including highly influential scientific assessments): 7

Number of HISAs: 5

5. Number of public comments provided on the agency's peer review plans during FY 2014, regardless of whether the peer review was actually completed during FY 2014: 0

6. Number of times agency specifically solicited peer reviewer nominations from professional societies\*: 0

If such nominations were solicited, were any recommendations provided? No.

\*Nominations were solicited from the public, including professional societies.
