

MINOR UPDATES TO AALM

July 2024

Update AALM Executable File Properties

The AALM executable file properties needed to be updated to contain specific descriptors that will allow IT departments to approve the file as a “trusted source”. Below are the proposed properties that were added to both, 64-bit and 32-bit, executables.

- File description: AALM executable
- File version: 3.0.0.1
- Product name: All Ages Lead Model (AALM)
- Product version: 3.0.0.1
- Copyright: 2024 U.S. Environmental Protection Agency
- Language: English (United States)
