- 1) Dr. Nicholas Basta, Ohio State University
- 2) Dr. Charles Harvey, Massachusetts Institute of Technology
- 3) Dr. William Hopkins, Virginia Polytechnic Institute and State University
- 4) Dr. Kerry Rowe, Queens University
- 5) Dr. Donna Vorhees, The Science Collaborative

Each conference attendee will be asked to state his or her name and affiliation.

**12:10 PM      Welcome and Introduction**

This teleconference is being conducted by Industrial Economics, Incorporated, under contract with the U.S. Environmental Protection Agency, Office of Solid Waste. The teleconference is part of the peer review of the draft document entitled *Human and Ecological Risk Assessment of Coal Combustion Wastes*.

**Meeting Administrative Procedures**

Conference attendees who have registered to give a presentation during the call are requested to limit comments to 10 minutes. Peer reviewers have been asked to take into consideration in the peer review process any comments made by members of the public during the teleconference or in the written Notice of Data Availability (NODA) written comment process. Peer reviewers are not expected to provide comments during the teleconference or to answer questions posed by members of the public. Review of the draft risk assessment document will be provided by the peer reviewers in written form subsequent to the teleconference and their thorough review of the draft risk assessment document and supporting materials.

**Meeting Process**

Teleconference registrants who have requested to give a presentation are asked to identify themselves and proceed with their presentation of comments when requested to do so by the facilitator. One minute has been scheduled between presentations to allow for presenters to introduce themselves. The facilitator will make every effort to adhere to scheduled times. Presenters will be notified when one minute remains, and will be asked to conclude their remarks. If time permits, presenters will be allowed additional time to conclude comments after each of the presenters has had an opportunity to comment. If a presenter's comments run short of the allotted 10 minute time-slot, the facilitator will request that the next scheduled presenter proceed with his or her comments.

**12:20 PM      Public Comments**

|          |  |
|----------|--|
| 12:20 PM | Ms. Ari Lewis, Gradient Corporation                          |
