

# PEER REVIEW PLAN

Title:

OPPT work plan assessment of 1-bromopropane

Purpose/Objective:

EPA anticipates issuing draft risk assessments for public review and comment as they are completed. At the conclusion of the review process, if an assessment of specific uses indicates significant risk, EPA will evaluate and pursue appropriate risk reduction actions, as warranted. If an assessment indicates no significant risk, EPA will conclude its work on the assessment for the specified targeted uses of the chemical. Over time, additional chemicals will be added to the work plan as more data are developed and more chemicals screened.

Product Completion Date  
(Projected):

01/30/2016

OMB Category:

Influential

Peer Review Leader:

Stan Barone  
email: Barone.Stan@epa.gov

External Peer Review Mechanism:

Ad Hoc Panel of Independent Experts
